Cohort Size Trend & Impact of Auto Enrollment

Change in Cohort Size

We're beginning to see what the long-term impact of auto enrollment on cohort sizes will be.

Our strategy has been updated to reflect working first with high school juniors and seniors to concentrate efforts on students that will meet the 21st Century Scholar Program requirements of a 2.5 gpa and minimum Core 40 diploma.

This allows us to have the greatest impact on student success while respecting time constraints our school counselors face.
